Election/Restrictions

1. The species election filed on 11 May 2007 elects Claims 1 – 31 as drawn to the elected invention of Species I (Figures 5 and 6). However, after careful consideration, ONLY some of the elected claims are directed to the elected species (Figures 5 and 6). For instance, Figures 7 and 8, as described in paragraph 126, indicates that the infrared cut filter 8F (which is part of the compensating optical system) has the same refractive index as that of crystal but does not have a double refraction characteristic. In this regard, Claims 4 and 22 appear to directly correspond to this feature – disclosed with Species II (Figures 7 and 8). Since it appears that only Claims 1 – 3, 5 – 21, and 23 – 31 are drawn to an elected invention, the species election is non-responsive (MPEP § 821.03).

2. Since the above-mentioned species election appears to be a *bona fide* attempt to reply, Applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

3. Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Justin P Misleh whose telephone number is 571.272.7313. The Examiner can normally be reached on Monday through Friday from 8:00 AM to 5:00 PM.

If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's supervisor, Lin Ye can be reached on 571.272.7372. The fax phone number for the organization where this application or proceeding is assigned is 571.273.8300.
